FaceTime

Introduction to FaceTime

- One of the most popular, free messaging apps available.
    - It allows you to make phone and video calls
    - You can talk with someone from everywhere
- Free audio and video
    - Easy to set up
    - Used globally
    - Great quality
    - Only works with apple devices

HOW TO USE FACETIME
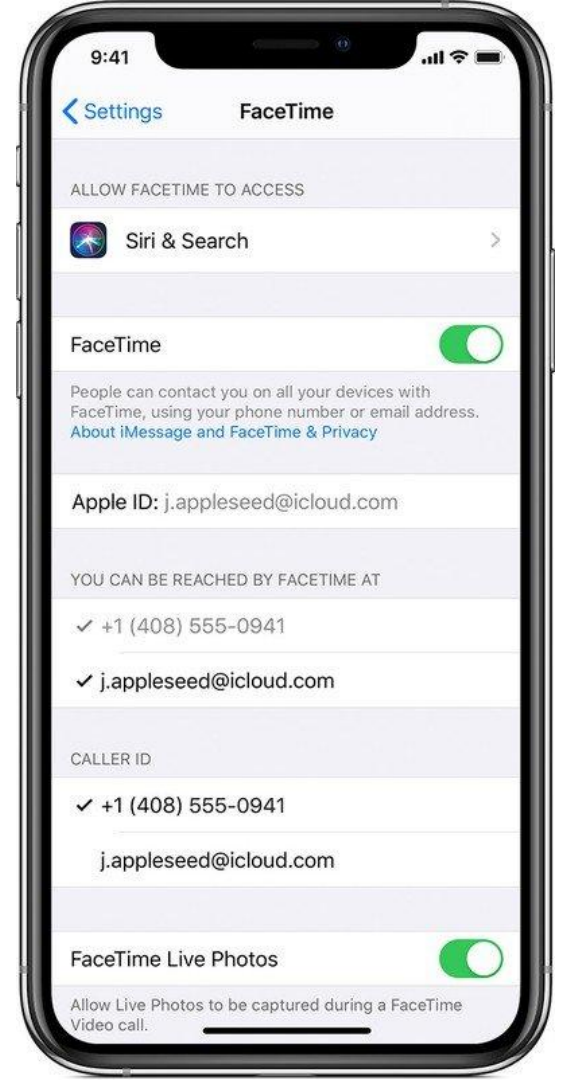

How to Use
FaceTime
Using FaceTime:

- **Getting Started:**
  - Make sure FaceTime is turned on
  - Go to setting
  - To FaceTime and turn the button on
  - FaceTime can only be used between Apple products

FaceTime: Video vs. Audio

- There are two ways to use FaceTime
    - Video or Audio
- Audio
    - Similar to a voice based phone call
    - Enter the person's name, email, or phone #
    - Click audio to make the call
- Video
    - This is a two-way video connection (or more, with Group FaceTime
   - Great if you want to see the person on the other end of the call

AUDIO   VIDEO

How to make a FaceTime call

1. Launch FaceTime app
2. Tap the plus (+)
3. Type: contact person, select a person you want to call, tap the circled (+)
4. Tap the Video button to initiate the call
5. For audio call just tap Audio

Group FaceTime:

- You can group FaceTime with up to 32 people at one time
- The size of the tiled view depends on the number of participants
- You can double tap a participant if you want to see in the chat
- You can add participants at any time

How to Make a Group FaceTime Call

1. Open up the FaceTime app
2. Tap on the "+" button in the upper right hand corner
3. In the "To" field, type a name and tap it.
4. Type another name.
5. Continue typing in all of the names of the participants who you want to chat with.
6. When ready to place the call, tap on either the audio or video option and participants will receive a popup letting them know you want to FaceTime with them.

Receiving an Incoming Call Request or Joining an Existing Group FaceTime Call

- When you receive notification for FaceTime
- Just tap to join.

- If you are in a group, you can join the conversation anytime during the call.
- Just tap the "join" button
- You can see how long the call has been going on.
